Submitted by Myra Ridder

**February 12, 2008 meeting**  
at Deer Valley airport Pan Am  
classroom A.

After introductions and welcomes Clovis Jones, Bob Ashby, Asa Herring and Michael Tolliver from the Arizona Chapter of the Tuskegee Airmen began the meeting. They presented a program on their experiences etc. and elaborated on their purposes:  
To continue the legacy of the Tuskegee Airmen,  
Support and promote aviation.

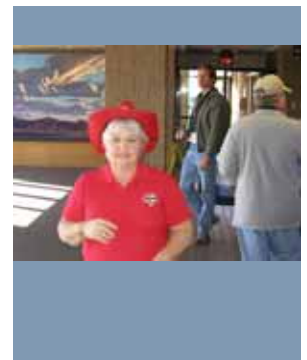

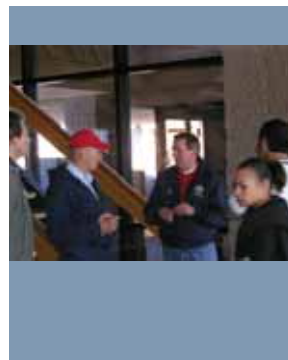

We broke for time to socialize and refreshments, purchase DVD's of the "Red Tail Reborn" project, purchase raffle tickets. There was a brief business meeting following that. No motions were made or discussed.

## March's Featured Project/s – Tom Velvick RV6 & RV4

Tom & Katie Velvick

Most people would be happy to be able to complete an airplane project. And would consider that quite a personal accomplishment. But that's not the case for Tom Velvick. When you venture out to Tom & Katie's hangar you find not one, but TWO projects underway. So this month we feature Both of their projects, As I recall, The RV4 came about as a sort of companion to Katie's plane. But after logging many, many trips together, they found that with the RV4 only one of them could fly at a time, So the RV6 is the hoped for solution. Rather than sell the RV4 project Tom is completing it, with the thought of possibly selling it after its completed. Tom, you're one ambitious fella!!!!
